Ice Surface/Floor

(non sporting events)

1. Occupant load on the Ice Surface is 1580 people.
2. In order to obtain this capacity, the gates must be completely removed from the hinges or fully opened so that no part of the gate restricts the opening.
3. Gates must be locked in the open position so as to prevent them from being closed at any time during the event.
4. If chairs are used on the ice surface/floor, they must be of the type that can be clipped together and they must be placed in rows as follows:
 - a. Not more than 16 seats per row between aisles.
 - b. 400 mm between rows from the front edge of the seat to the back of the seat in front.
 - c. There shall be an 1100 mm aisle on both ends of the rows.
 - d. If a row is set up with one end against the boards, there shall be no more than 8 seats in the row.
5. Access aisles must be maintained to all exits off the ice surface and to the exterior exit doors including through the zamboni room to the double doors exiting to the south.
